

**Cut your  
maintenance,  
extend drum life.**

**CentriFuse® HD**  
Severe Service Brake Drums

## **Heavy Duty Brake Drums for Heavy Duty Stopping Power.**

In severe service applications, you want to be confident in the ability of your brake drums to bring heavy loads to a stop quickly and safely. With the wear and tear that severe service applications can put on a brake system, you need brake drums that are going to keep your trucks on the road longer—not in the service bay for drum replacement.

Featuring an industry-exclusive steel jacketed drum load that extends brake service intervals, CentriFuse® HD brake drums outlast and outperform competitors' full-cast brake drums and provide unmatched performance, durability and safety. Plus CentriFuse® HD brake drums also weigh less than competitive brands for increased fuel efficiency.

**Making the roadways safer.®**
