

# STEMCO HURRICANE FLEET RELIEF PROGRAM

## Rebuilding Together, One Wheel-End at a Time

At STEMCO, our thoughts have been with everyone that has been affected by the recent severe weather in the southeastern states. To support the fleets that keep our industry moving every day, we are proud to introduce the STEMCO Hurricane Fleet Relief Program. This initiative aims to assist fleets impacted by water intrusion within their wheel ends from the recent storms.

Through this program, STEMCO is partnering with participating distributors and dealers in the affected areas to offer savings on STEMCO wheel-end products needed for wheel-end rebuilds due to water intrusion. We hope this effort will provide the necessary relief and demonstrate our commitment to the trucking community.

For more information please reach out to your STEMCO representative.
